# IMMEDIATE HEALTH & SAFETY ASSISTANCE

Sometimes a business needs an aerial platform for a one off urgent issue to comply with current working at height legislation.

Having gained 24 years building maintenance knowledge and understanding, together with extensive FM experience and Nebosh Diploma health & safety qualifications, Andrew Lane, Owner Director of Land & Premises (UK) Ltd is now offering a unique same day service for an operated 22 metre truck mounted unit with an impressive 17 metre outreach.

Working with commercial Landlords, Managing Agents and major blue chip companies, Land & Premises (UK) Ltd has gained a reputation of excellence and professionalism when dealing with extremely difficult situations, managing the initial concerns to allow the client to concentrate on their core business.

Available From

£95

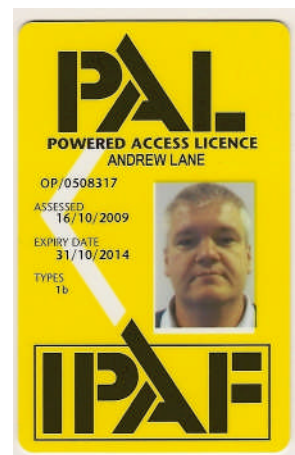

Per Hour

## Aerial Work:

Emergency Work – Roof Surveys – CCTV – Window Cleaning – Gutter and Facia Cleaning - Sign Installation - Painting & Decorating - Film & TV General Building Maintenance - Radio and Telecommunications

## Other Work:

Risk Management - Development Site Risk Assessments - Site Hoarding Boarding and steeling over of vacant buildings – Site Clearance – Emergency Heras Fencing - 2.5 Tonne Access Prevention Blocks

Please note: Same day response is only applicable once works order is received, no works can proceed on public highway without local authority permit and road cordoning being implemented. Site risk assessment and operating method statement will be issued prior to working at height activities.
